I would love to know how you installed this and how to get the same issue on a different machine. We are getting the same issue every time we try to run it. A: I have the same problem. I have downloaded the new version but I cannot run it. It is very weird. The problem is not my PC, it is the PC of our contractor. He is currently online with me on Skype and I can hear him playing music. The problem is that he is listening to the music on Spotify. So I recommend you to try to run the program with Spotify disabled. Please try and let me know what happens. Sorry for my English. A: Try this. The present study examined detrusor sphincter dyssynergia (DSD) in spinal cord injured (SCI) patients, during sustained detrusor contractions, using a catheter system with pressure-sensitive and manometric electrodes. Four SCI subjects and six able-bodied subjects were enrolled in the study. All SCI subjects underwent a prolonged (15 min) cystometrogram (CMG), in which baseline urodynamic values were attained. In the SCI subjects, the CMG was repeated while pressurizing the bladder at 20 and 40 cm H_2O for 15 min, during which DSD was measured. The CMG was repeated 10 times in all six able-bodied subjects, and the results were compared. All SCI subjects developed DSD, lasting for 15-20 min, during CMG at 20 cm H_2O pressure. A sustained DSD during CMG at 40 cm H_2O was observed in four SCI subjects but not in able-bodied subjects. This paper reports that SCI subjects developed a sustained DSD, which may be caused by the delayed micturition reflex.FYI --------------------- Forwarded by Rosalee Fleming/Corp/Enron on
