What's New In?

AutoCAD and AutoCAD LT Markup Assist in the middle of a drawing. Prior to AutoCAD 2023, markup assistants like AutoCAD Drawing Markup or Microsoft Word were the only tools you could use to export your drawings to another application. With AutoCAD 2023, you'll have many more options. You can export to another file format, such as PDF, OLE, or Word, directly from within AutoCAD, or you can share your drawings with other users via Dropbox, OneDrive, and other cloud services. This workflow change also means that you can import drawings into AutoCAD from many other applications. Generate Streamlines: Generate streamlines in 3D, 2D, and text-only AutoCAD drawings. The new tool takes a list of 2D and 3D polyline coordinates and produces a 2D or 3D polyline streamline. You can adjust line thickness and color, and import/export to Excel. (video: 1:38 min.) Show/Hide Hidden Objects: Show hidden objects and redefine their visibility in AutoCAD LT and AutoCAD. Show Hidden Objects redraws hidden objects and makes them visible on the drawing canvas. Hide Hidden Objects redraws hidden objects and removes them from the drawing canvas. New Menu and Toolbar Items: The navigation and toolbar items have been refreshed to make your life easier. Access new menu items, including Hidden Objects, Properties, Import, and other miscellaneous tools. You'll also find new toolbars, including Scaling, Drawing Basics, Functions, Reviewing, Export, and other miscellaneous tools. New 3D Templates: 3D templates are available in AutoCAD and AutoCAD LT for 2D and 3D drawings. Whether you need 3D house plans, 3D furniture, or 3D objects, you'll find a variety of great templates in the 3D template category. CAD Reference Resource: The CAD Reference Resource has been expanded with new categories, including Shapes, Utilities, and objects and constraints. AutoCAD Reference helps you find tools, commands, and information related to your current project. Communication and Feedback: Communicate with other users by sharing your drawings. Share your AutoCAD drawings with other users by making them
