I don't know how many people have their own lists of such items. Here, I present a list of some software which is not available as a torrent, but you can download it from some web page. Acrobat Reader and Acrobat: I didn't find them as torrent. You need to download them manually. Photoscape: This is a Photoshop alternative. Here's the page. ISPCCK3: I haven't found it as torrent, but you can get it here. Java: I didn't find it as torrent. MeGUI: This is a general purpose open source screen recorder. A: What you're looking for is an All-In-One-CD-Burner. This is a good article that will tell you how to do this on windows (there are other posts on windows that are very similar). The main point to remember is that the CD needs to be formatted, so it can only contain bootable files (for example, if you don't format the CD with MSDOS, it won't be bootable) A: Here's a list of torrents of software and other content, sorted by number of seeders: Azureus - 20 seeders Player FM - 29 seeders MediaMonkey - 16 seeders Bittorrent Sync - 15 seeders TeamViewer - 14 seeders Multi-Tabbed Remote Control For Firefox - 13 seeders Folders to a Dlink NAS - 12 seeders SAV file - 11 seeders Tomb Raider - 10 seeders Antergos ISO - 9 seeders McAfee Web Security - 9 seeders Torrent downloader - 9 seeders TeamViewer - 8 seeders MP3 + FLAC file - 8 seeders Paint.NET - 8 seeders SpaceFM - 7 seeders mpc - 7 seeders Ubuntu Server - 7 seeders GitHub - 6 seeders GhostScript - 6 seeders
