Vitrea Report Cd Viewer

Download

dicom viewers can be classified into three groups: stand-alone (one or more applications), client-server (one or more applications), and plug-in (one application). the stand-alone viewers are standalone applications that are not integrated with other applications. they can be installed on windows, mac, and linux devices. the client-server viewers are usually integrated with a pacs or picture archiving and communication system (pacs), which is a database that stores patient and other image data. the plug-in viewers are usually only available for windows devices. these viewers are usually integrated with a pacs, but can be independent applications that are operated from windows, mac, or linux devices. the stand-alone viewers are often

used as the main viewer for any dicom images that are uploaded to a pacs. the client-server viewers are the most common type. they are often used as secondary viewers when viewing images from a pacs. the plug-in viewers are most commonly used for viewing images stored in a pacs. they are often used to view images uploaded to a pacs. they are also used to view images on a computer that has a pacs client installed. this app is a powerful and fast dicom viewer. it enables a variety of image processing functions such as 3d reconstruction, volume rendering and image manipulation. it can generate structured reports and allows basic measurements, annotations and zooming in for images. it is compatible with windows and mac os x. the app is compatible with a variety of devices and does not require installation. it is an open-source dicom viewer that provides a lot of features to access and view data. it offers advanced image processing functions like 3d reconstruction, volume rendering and image manipulation. it is compatible with windows, mac os x and linux. the viewer offers a user-friendly interface and enables easy preparation of reports from dicom files. it can be downloaded as a potable zip file that does not require installation. the free version is only for a trial and purchase is required to access all features.
