The pick: Soulfood 2013 has been a year of surprises. The paradigm of entertainment has changed, and in this digital era, we're lucky if we find one artist that works for us. But some people have stumbled on a formula, a musical formula that not only works for them but for so many others in a similar light. Enter SoulFood, a three-piece band out of Los Angeles that takes on soul sounds but with a modern approach. Starting out on the beach in Malibu with oldies like "You Make Me Blue," SoulFood was quickly noticed by the masses. From here they began to mix in genres like soul, jazz, reggae, and pop. But the real head-turner came when they recorded their single, "Beautiful People," which was a hit on the Adult R&B charts. Taking things one step further, SoulFood's debut EP, "The Deepest Of Peace," put them into the music

business, somehow topping Billboard's Hip-Hop/R&B Albums Chart. This year, the band releases their first full length album, "Body. Soul. Love." At its core, one can say SoulFood is music for people who want to feel something deeper than what the mainstream has to offer. This is something that can only be experienced if people take a chance on something new. Give SoulFood a listen and you'll be hooked in seconds. They say: "Stepping into and through a piece of music can be hard to explain, but that's what fans are looking for" The pick: MAGNUM

Hard rock n' roll can take many different forms. Latin-jazz, blues-jazz, tri-tracker, ethereal rock, shoegazer, psych, prog, doom, and groove are only some of the genres that early hard rock artists and musicians blended into a tasty new sound. Never one to be bound by genre, motocross-superstar Kenny Roberts' group, MAGNUM, breaks through the masses with their brand of hard rock. Combining elements from his motocross career with the talents he has garnered on the road, you can easily describe the sound of the band as musical x-treme. Considering
