“The goal of the game development team working at EA Vancouver is to create a realistic, hyper-realistic football game experience,” said Jon Slivka, director of FIFA. “The best way to deliver the same high quality of play experience is to simulate the real-world conditions in our motion capture suits. The specific type of conditioning, physical demands and tactics each of our 22 players undergoes helps create the most authentic match experience possible. EA Vancouver’s team of engineers, artists and programmers understand the way our players are trained and these data sets play a key role in creating a match that is authentic to the experience that our fans are used to.” EA SPORTS FIFA 22 introduces “HyperMotion Technology,” which uses motion capture data collected from real-life players playing a complete, high-intensity football match in motion capture suits. The data collected from player movements, tackles, aerial duels and on-ball actions is used to power the entire FIFA game experience. FIFA is the world’s most popular football videogame franchise. Originally released back in 1992 on the MS-DOS platform, FIFA and its franchise were sold on over 50 million units since its release. Since then, FIFA has been translated into 11 languages and has been distributed in over 100 countries worldwide. This year, FIFA returns to its roots on Xbox One and PlayStation®4 with the same highly-acclaimed gameplay that has made the franchise a global phenomenon. FIFA’s success is built on a foundation of innovation, core gameplay, and deep partnerships with sports and media partners. Why FIFA is so popular? FIFA is recognised by millions of gamers worldwide as the best football videogame out there. We’ve collected an exhaustive list of what makes FIFA the best! Some of the additional benefits include: Deep gameplay across the board: A selection of new challenges makes FIFA more playable for all types of players, allowing the finest of footwork and tackles. Realistic ball physics: The ball reacts to every touch with an almost-realistic physics and surface-

sensitive response, giving it added life. This includes a new, more accurate touch model. All-new gameplay innovations: The introduction of the revised Direct Kick system allows players to control the direction of the kick by themselves. Improved control over the ball: Thanks to refined control methods, players can now earn and save control of the ball and execute crisp one-touch manoeuvres. FIFA Fan's Eye View (FEV): The world's first football game to fully immerse fans in the action and let them play in any role, anywhere. Your every move is visible on screen like never before, so you can experience the thrill of the sport as if you were on the pitch. Annualized partnerships with sports and media partners: FIFA has the largest sports media and marketing infrastructure in the world, with more than 100 licensed brands covering many different sports. FIFA connects with fans by making football more social and gaining a deeper understanding of teams and players on a personal level. Legacy of innovation: Faced with a strong, intelligent, and passionate audience, FIFA is continually improving its match engine, adding features and rolling out gameplay enhancements. EA SPORTS Season Ticket: The best football experience is only possible with the upcoming Season Ticket, a new subscription service that offers a whopping 50 additional players, a selection bc9d6d6daa
